

# 3 Eyed Kids – Bio

With a young, fresh energy 3 Eyed Kids is coming to tear your stage up. Influenced by artists like \$uicideboy\$, City Morgue and Fever 333, the trio combines metal and hiphop in a unique and modern way. This new and unique sound has led to bands like King810 and Another Now both inviting them to join the party for their upcoming shows in the Netherlands.

3 Eyed Kids may be new, but they're far from inexperienced - the members know what is up due to their time in The Charm The Fury, Depths of Kronos and Plain Aggression.
